Dear Mr. Borges,

Cordial Invitation for Miami Dade County ISD to please participate in the Miami River Commission's public meeting, 12/2, noon, 101 W Flagler, downtown library auditorium. The issue addressed in email chain below will be on the agenda.

Thanks for your time and support of the Miami River District.

Sincerely,
Brett Bibeau
Managing Director,
Miami River Commission
Cell 305 987 4446 – www.MiamiRiverCommission.org

Per State law the Miami River Commission acts as the official coordinating clearinghouse, advocate and watchdog, to ensure public policy and river projects are funded and implemented in a proper and timely manner.

will have a discussion of this item on the next public meeting agenda,

Wonderful, thank you Ms Soper,

Yes, you are correct, my “request/concern is that the county-owned parking lot, formerly used for paid parking, be beautified and re-opened for public use”.

FYI the MRC played an advisory role with the original deal many years ago when MDC had an agreement with Miami Parking Authority (MPA) and MPA paid for paving, drainage, striping, etc. for the public paid parking lot which operated for years on this subject County owned site

Thanks for your time and assistance

Sincerely,
Brett

Thank you Ms Soper,

In response to your recent questions:

1. 01-0109-000-1130
2. 474 NW 4 ST
3. Aerial is attached, page 3, highlighted area #”6”
4. County Tax Appraiser website identifies owner as “Miami Dade County Water and Sewer”
5. Current use of the site is a vacant public parking lot, which had been used for years for public paid parking and the MRC is recommending that needed use be restored please, along with the removal of the ugly fences which obstruct the pretty public riverwalk at this location

Yes, I had intended to cc Director Munoz but feel a sense of traction with you so looking forward to your reply please.

Thanks for your time and assistance

Sincerely,

Brett Bibeau

Importance: High

Good afternoon Brett,

I am in receipt of your email below and want to see how I can help. First, after reading the thread below let me apologize on behalf of the County.

Can you please be so kind as to identify the following, which I'm not able to see from the email thread:

1. Folio(s)
2. Street Address(es)
3. Aerial / Map location

And to the County team, please confirm:

4. Property owner
5. Current Use of site

Finally, I see a gentleman by the name of Alfredo Munoz copied. Was that intended instead to be ISD Director Alex Munoz?

Thank you very much.

Good morning Mr. Beau,

Please forgive me for my delay in responding to your email message, but I was out of the office yesterday.

As I previously shared with you in December, and in an effort to ensure that your email messages receive the prompt attention that they are due, please be reminded that I am no longer involved in this matter.

Of course, as you might imagine, my office wants to make certain that you do not believe that somehow my office is involved in this matter or has some influence on the outcome of this matter.

Therefore, kindly be reminded to work directly with the County staff that are overseeing this matter.

Separately, if there is an upcoming event in which the Miami River Commission desires to utilize the subject parking lot and/or another property

owned by Miami-Dade County, please allow me to respectfully suggest that your office provide Miami-Dade County with as much advanced notice as possible in order for County staff to secure all of the requisite approvals necessary to allow the Miami River Commission to utilize the property(ies).

Thank you.

Steven

Subject: RE: WASD Parking Lots on North River Drive

Good Morning Mr. Beau,

Thank you for your email message.

As you know, I always take the time to respond to you. And while all of my responses may not be by email, I always take the time to make certain that you receive a response from me.

In your email message below, you attached it to an email message from March 2, 2023, as if you had not received any response from me for the past nine (9) months. Our exchange of email messages in March dealt with your request, or more appropriately, the Miami River Commission's request, to utilize certain properties that are owned by Miami-Dade County for the annual Miami Riverday event, which takes place along the Miami River, and which was then scheduled to be held between March 31 – April 1, 2023. And at that time, based upon your request, I placed you in contact with the appropriate Miami-Dade County staff to allow the Miami River Commission to utilize the properties that it wanted to have access to for both staging and parking. For your convenience, I have taken the liberty of attaching a couple of email messages that I hope will refresh your recollection regarding this matter.

And while you have now bolded a certain portion of your message from March 2, 2023, in my opinion, the main focus in March was to ensure that the Miami-Dade County properties that the Miami River Commission wanted to have access to, for staging and to provide free parking, were timely made available to the Miami River Commission for such use.

Please know that I want to help you. I am here to help you. Just like for any other citizen/resident of Miami-Dade County, you have my attention. However, I do not think that it is a fair characterization for you to attach an email message from nine (9) months ago, as if I did not respond and/or the main focus of the message was not timely addressed. I think that the better approach would have been to simply call me or send me an email message stating, *I assume*, that the parking lot is not open and available to the public. In this regard, please know that I believe that Mr. Yoel Del Rosario has been working on (involved in) having the parking lot opened and made available to the public. Therefore, please know that I have taken the liberty of copying Mr. Del Rosario on this message, so that going forward you can

communicate directly with him. And, I am confident that Mr. Del Rosario will be able to assist you and answer any questions that you might have regarding the parking lot.

I apologize for the long missive, but I felt the need to “correct the record,” because it appeared that I have not been responsive to you.

As always, thank you.

Steven

Happy Holidays!!!

Subject: RE: WASD Parking Lots on North River Drive

Dear Mr Mayers,

Your 10/5/22 email below states, “Please be advised that the subject parking lot will soon be open to the public, and it will be operated by staff of Miami-Dade County's Internal Service Department.” It remains closed to the public, and the County sponsored free 24th Annual Miami Riverday is less than 1 month away (April 1). May we please use the vacant lot for free parking on 3/31 and 4/1? In addition on May 1 may we please use the 2 lots again on North River Drive near flagler Bridge and the 1 CAA lot, as we have always done in past annual Miami Riverdays? If so when may I meet someone there to give me keys?

THX

Sincerely,

Brett

Subject: RE: WASD Parking Lots on North River Drive

Wonderful thank you. Friendly reminder that when it was previously used as a public parking lot it did not have the ugly fence around it which now blocks the view of this site's public Riverwalk and rather makes the area look like a jail / cage. Therefore I respectfully recommend removal of the fence please.

I hope you have a nice day

Sincerely,

Brett

Subject: Re: WASD Parking Lots on North River Drive

Good afternoon Mr. Bibeau,

Thank you for your patience and cooperation regarding the surface parking lot located on North River Drive.

Please be advised that the subject parking lot will soon be open to the public, and it will be operated by staff of Miami-Dade County's Internal Service Department. And while there remains some internal "logistical issues" that need to be negotiated and resolved between the Water and Sewer Department and the Internal Services Department, those issues are not expected to impact the opening and/or operation of the parking lot.

Lastly, please be advised that the "point person" for Miami-Dade County, regarding the opening and operation of the parking lot is Mr. Yoel Del Rosario, who is copied on this email message. I have shared with Mr. Del Rosario that as soon as the parking lot is operational, meaning the requisite equipment has been installed and the parking lot is ready to be opened for use by the public, that he should contact you, to notify you of the then status of the parking lot, so that you can visit the property or otherwise know that the parking lot is ready to be utilized by the public.

Thank you.

Steven

Subject: Re: WASD Parking Lots on North River Drive

Good morning Mr. Bibeau,

Thank you for your email message.

Please allow me to take this opportunity to share with you what Miami-Dade County is currently planning for the subject parking lot. The parking section of the Internal Services Department has agreed to undertake the responsibility of managing and otherwise operating the parking lot on behalf of the Water and Sewer Department, which is the department, within Miami-Dade County, that controls the parking lot.

As you might imagine, the parking section has a lot of experience managing and otherwise operating parking lots and parking garages. And based upon such experience, it makes perfect sense for the parking section to undertake the responsibility of operating and otherwise managing the subject parking lot. The current plan involves operating the parking lot with a parking machine/meter, to limit the overall operating expenses, because the cost to have a parking attendant on site, 12 to 15 hours per day, every day, is expensive.

Unfortunately, due to an odd twist of fate, the parking section must first secure the approval of the Board of County Commissioners, because of a technical issue, the likes of which I will speak of. The next opportunity to have an agenda item, for the Board of County Commissioners, which will resolve the technical issue, is in September, two (2) months away. In the interim, my office had hoped to negotiate a temporary agreement with a restaurant located near the parking lot, which would have allowed the restaurant to open and utilize the parking lot, but the restaurant owner has not been receptive to responding to Miami-Dade County, so that expected interim solution was recently abandoned. As a result, it appears that we are two (2) months away from opening the parking lot to the public.

Separately, and completely unrelated to the aforementioned matter, I noticed in the email chain below that not all of the correspondence that we have exchanged is included. For example, I sent you an email message on June 30th, which cannot be found below.

Thank you for your continued patience and cooperation regarding the planned opening of the subject parking lot.

Good afternoon Mr. Bibeau,

Thank you for your email message.

Please recall that after sending your email message on May 23rd, I immediately replied to your message (please see attached) and you called me the same day, and we spoke, by telephone, about this matter.

As I shared with you, Miami-Dade County is reviewing this matter internally, specifically regarding which County department will manage/operate the surface parking lot. Please rest assured that Miami-Dade County has not forgotten about this matter. In fact, just the opposite is true, as the staff has had many internal conversations regarding the best course of action to take to manage/operate the parking lot.

And, while I can appreciate the fact that from outside of Miami-Dade County this matter may appear simple to resolve/address, please understand that there are several different factors that the staff must consider, evaluate and address before determining a viable course of action in this matter.

Therefore, please be patient while Miami-Dade County's staff determines the best course of action to manage/operate the surface parking lot.

Your anticipated cooperation and professionalism is greatly appreciated.

Thank you.

Steven

Subject: RE: WASD Parking Lots on North River Drive

Dear Mr Mayers,

Unfortunately your email has increased my level of concern regarding this issue. The MPA made site improvements at this location at no cost to MDC, and this vacant valuable lot was used as a needed public paid parking lot for years. When County sold a different nearby WASD lot to Mas Tech, they thought about relocating some WASD trucks to this location, but thankfully stopped doing so around a year ago. Therefore WASD thankfully agreed to re-enter MOU with MPA to reopen as public paid parking lot, which is desperately needed for the park which has only 3 regular parking spots and the nearby restaurants. Recently senior leadership WASD staff was having lunch at Garcia's, and they told Luis Garcia the good news about how this lot was about to reopen as the public paid parking lot it previously was for years.

Damarys Isler's 4/9/21 email below states in part, "I have not forgotten about you. The MOU is in progress but keep in mind it's another section who does these for us therefore I am at their mercy." WASD already spoke with MPA and MPA is willing to move forward. Considering these years of communications with WASD, not ISD, why is ISD involved now?

Do you have time for a short call today?

Thanks for your time and assistance.

Sincerely,

Brett Bibeau

Subject: Re: WASD Parking Lots on North River Drive

Good morning Mr. Bibeau,

Thank you for your email message. It is good to hear from you again!

I have read through the below chain of email messages dating back to December 4, 2019, which began with a conversation about the installation of an expensive fence, removal of large poles, and a plan for Riverday (Riverfest) parking on April 4, 2020. Then, starting in August 2020, the email messages began to discuss a broken irrigation pipe. And then, with email

messages beginning in October 2020, there began a discussion about re-opening the parking lots.

The chain of messages appears to be an open channel of communication between the River Commission and WASD about any and all concerns or issues between the parties. And as a result, I have taken the opportunity to share with you the foregoing snippet of history, only because as the new person to this conversation about re-opening parking lots, I do not want to misstep with regard to any important facts or information.

In addition, please take careful note that I have intentionally removed from this email message the employee from the MPA, as it is unclear what direction this matter will proceed. At least for now, let us just keep this conversation about re-opening the parking lots between the River Commission and Miami-Dade County.

Lastly, please give me a couple of days to discuss with staff from WASD the "wants and wishes" of WASD, and afterwards, we can meet and I can share with you the plan on how this matter will move forward.

Thank you in advance for your anticipated cooperation regarding this matter.

I look forward to working together again with you.

Hi there:

I have not forgotten about you. The MOU is in progress but keep in mind it's another section who does these for us therefore I am at their mercy. I have been told that we should have a draft by the end of next week. In the meantime, I will send you a meeting invite so we can talk next week in reference to the pictures you have sent me. Sorry I am not available this afternoon since I leaving shortly for a doctor's appointment. Thank you and have a great weekend!

Good morning Mr. Bibeau,

I just spoke to the supervisor who conducted the leaks survey at the site. He again confirmed that there is no leak on our main nor on the irrigation system. He explained that because the timer is not working properly the irrigation system is continuously running and that is the reason for the accumulation of water.

Subject: RE: WASD Parking Lots on North River Drive

Confirmed for you to call my cell 305 644 0544 October 26 at 10 AM. Is it possible for the supervisor I spoke with 3 times to join us for the conference call portion re the leak in the broken irrigation pipe? Twice I asked him, "So the plan is turn off the timer, fix the broken pipe where the water is leaking out, and then turn the timer back on?" and twice he said yes. At one point he thought that this public Riverwalk area outside of the fenced parking lot was not part of the WASD site, but I clarified that it is all part of the same WASD property / folio / responsibility. In addition, the on-site employee told me on the phone that he located the reported break in the irrigation pipe.

THX

Sincerely,

Brett

Mr. Bibeau:

There must be some misunderstanding because I was advised by staff, as I mentioned in my previous email, that there is no leak. The timer appears to be the issue.

As for our conference call, I am available Monday, October 26th at 10 AM. Let me know if this time works for you.

Thank you!

THX for your email. Yes, per your request I'm available to schedule a call "early next week". Are you available Monday AM?

Based on calls I received today from County on site and in the office, my understanding is that they located the leak in the reported broken irrigation pipe, therefore their plan is to turn off the auto irrigation system timer, fix the broken pipe, and then turn the timer back on.

Your time and assistance are appreciated. Stay safe.

Sincerely,

Brett

Good Afternoon Mr. Bibeau:

Hope all is well. We had staff investigate the leak at the irrigation pipe located by Pump Station #1. Our investigation shows there is no leak it was found to be an irrigation system with a faulty timer.

As for the parking lots, I have been tasked with this duty. You and I spoke several months ago but I do need to speak to you again so you can refresh my memory. Can we schedule some time to talk early next week?

Thank you and have a great afternoon!
